

Autumn Gratitude Tree

Materials

- ⇒ Small tree branches, Vase or planter, rocks or floral foam
- ⇒ Truck template, crayons or colored pencils
- ⇒ Leaf template, colored paper, hole punch, string, black pen, small bowl
- ⇒ Scissors

Instructions

Find a few small tree branches in your backyard and place them in a vase or planter, securing the branches with rocks or floral foam. Using the cardstock truck template below, trim, fold, color, and place below the branches. Using the leaf template and colored paper, cut multiple leaves. Place the leaves, a black pen, a hole punch, and some pieces of string in a small bowl below the branches. Over the next eight weeks until Thanksgiving, write things you and your family are thankful for onto the leaves, punch a hole in the top of the leaf, loop string through the hole, and tie to the branches. Display for Thanksgiving as a centerpiece.
